

Carbonfund.org

*Carbonfund.org wishes to donate
the total offset amount of 11.35 tons of CO2 emissions for the*

International Polar Year 2007 Kuuvik River Expedition

to reduce greenhouse gas emissions in the fight against climate change. By offsetting this expedition we are supporting climate-friendly projects globally, including renewable energy, reforestation and energy efficiency, while supporting our mission of education, offsets and outreach. Your leadership on climate change is important today and for future generations.

Thank you.

*Eric M. Carlson
Executive Director*

Carbon Offset Year: 2007
